

Y1 / 2 Homework Projects

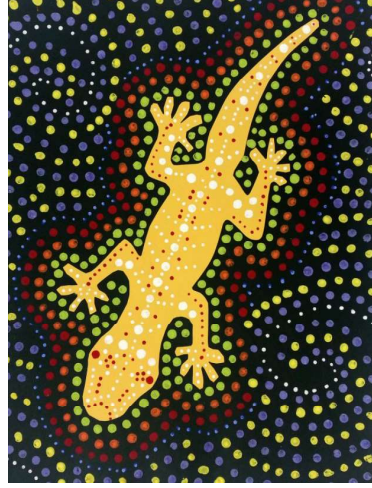

Here are some homework projects for you to complete if you would like to.

You are welcome to send in pictures or bring your project in to share with your class.

Autumn Term 2025

Create & Construct!

This half term we are learning about the continent of Africa! At home, have a go at recreating some African artwork using cotton buds or even your finger to dip into some paint and print into amazing patterns!

Time Together!

We are learning all about African culture! At home, research key foods that are used in African dishes and try to make your own delicious dish! Remember to do this with adult supervision.

Alternatively spend some time looking at a globe or maps, researching continents, and the countries in Africa.

Out & About!

The season is changing!

On your local walks can you spot the signs of Autumn? What is happening to the trees? Can you see any flowering plants?

I wonder if you can collect some conkers? How many can you collect?

How many different animals, birds and insects can you see on your walk? Take photographs to show your class!
