

Y1 / 2 Homework Projects

Here are some homework projects for you to complete if you would like to.

You are welcome to send in pictures or bring your project in to share with your class.

Autumn Term 2026

Create & Construct!

This half term we are learning about Our Wonderful World in Geography.

Can you make a Mini Globe? Use a paper-mâché balloon or a ball

paint the blue

oceans and green continents.

Maybe you could create a World

Map and add some of the places you could visit.

Time Together!

In DT we are making moving picture books.

Visit Ossett

library and see if you can find any moving picture books.

Explore different books, looking at their features (e.g. comics and annuals, non fiction books).

Could you bring in a favourite book from the library and tell the class why you love it so much?

Out & About!

The season is changing!

On your local walks can you spot the signs of Autumn? What is happening to the trees? Can you see any flowering plants? I wonder whether you can collect some conkers or pinecones?

How many different animals, birds and insects can you see on your walk? Take photographs to show your class!
